

DEUCE C130 RORO CASTER WHEEL INSTALLATION

SETUP: Park DEUCE on hard, flat, level ground, place transmission in neutral and set park brake.

1. Upon initial receipt of you caster wheels perform a trial installation.

2. Insert pin to insure proper fit in hole below the ripper teeth on the blade.

3. Using a rat-tail file clean the pin holes to insure proper fit, if required.

WARNING:The caster assembly weighs 100lb. and requires a lifting device or two person lift.

4. Raise and block the blade.

5. Using the proper lifting device lift caster into place and insert pin and spring clip.

6. Repeat steps 2, 3 and 5 on the other side of vehicle.

WARNING:The caster assembly weighs 100lb. and requires a lifting device or two person lift.

7. After mission completion, store casters in rear storage box.
